ANDRZEJ MAJKA

COMPUTING STUDENT • SOFTWARE & DIGITAL PRODUCT BUILDER

Leyland, United Kingdom | 07778 438 831 | andrewmajka@icloud.com | linkedin.com/in/andrzej-majka-389933398 | unknown-ajm.com

PROFILE SNAPSHOT

Career changer into computing
20+ years professional experience
Fast, hands-on learner
Design + problem-solving mindset
Reliable, process-driven delivery

TECHNICAL TOOLKIT

HTML & CSS
JavaScript
Git & GitHub
VS Code
Domain setup & hosting
Python — beginner
SQL — beginner

CURRENTLY LEARNING

React
Advanced Python
API integration
App store deployment

STRENGTHS

Analytical thinking
Problem solving
Communication
Adaptability
Leadership & teamwork
Attention to detail

PORTFOLIO

unknown-ajm.com

Self-built portfolio demonstrating front-end development, iterative debugging and UI/UX thinking.

PROFESSIONAL PROFILE

Career-changing Computing student with more than 20 years of professional experience across engineering, manufacturing, legal services, logistics, sales and customer-facing operations. I learn fastest by building: my portfolio is developed from scratch in HTML, CSS and JavaScript, and I enjoy tracing problems until I understand why something fails, not simply making it work. I combine that hands-on technical mindset with reliability, commercial awareness, clear communication and a strong eye for usable design. I am seeking a placement, internship or trainee opportunity where I can learn quickly, contribute from day one and grow into a developer who creates useful, well-designed software that delivers real value for the organisation and its users.

SELECTED PROJECTS & PRACTICAL WORK

- Portfolio — designed and built from scratch using vanilla HTML, CSS and JavaScript; documented real debugging and accessibility improvements.
- YOUREC-AJM — founded a software studio in January 2026 focused on software, mobile apps, website design and administration.
- GCSE Maths App — university prototype in development with interactive practice, staged help and learning tools.
- MAYKAroom — prototype concept combining project chat, video meetings and shared document collaboration.

EDUCATION

BSc (Hons) Computing | Solent University, Southampton
2026 – Present

- Developing skills in programming, software development, databases and computational thinking.
- Foundation Year completed with Grade B; applying learning directly through personal software projects.

Diploma Engineer Degree — Automotive Engineering Technology |
1997 – 2003

- Studies included engine technology, vehicle mechanics and automotive electrical engineering.

PROFESSIONAL EXPERIENCE

Driver | Elis UK
July 2024 – February 2026

- Managed daily logistics and delivery operations with reliability, accuracy and disciplined time management.

Automotive Technician / Team Leader / Key Operator-Supervisor | Leyland Trucks (DAF UK)
June 2021 – August 2024

- Progressed across technical and supervisory responsibilities in a high-performance manufacturing environment.
- Learned and applied complex technical systems while balancing process, quality and production targets.

HR Supervisor & Solicitor Assistant | KL Law Ltd, London
July 2016 – May 2021

- Supported legal documentation, HR administration and business operations, handling confidential information with accuracy and professionalism.

PCV Driver / Relief Inspector | Stagecoach Bus, Preston Depot
February 2008 – July 2016

- Progressed into operational coordination and service-standard monitoring; resolved day-to-day issues to maintain reliable service.

Sales Consultant / Sales Executive / Marketing & Customer Relations Specialist | **WGN Real Estate Exchange**

June 2000 – December 2008

- Built strong communication, negotiation and customer relationship skills across sales, marketing and property services.
